Since 2015 Saffek brings the music of frontman/composer Oren Amitai to life, colorful earthshaking Alternative Hard Rock which revolves the awe and pain of being in the weird state of 'existing'. The band creates a rich wall of sound with layers of intense guitars and keyboards, powerful rhythm section led by raw scorching vocals.

Saffek performs totally exposed, burning everything on their way. The band feeds off the crowd's energy, takes the magic of how bizarre life is and squeezes this sensation to a sweeping ecstatic experience of elevation.

Saffek has performed in acclaimed Israeli festivals including SoLow and Yearot Menashe Festival. They have participated in showcases such as Haifa Music Showcase and Synthesizer Showcase. Published in international blogs, press and radio. In the year to come, Saffek will release a new L.P and will go on touring Europe.
